**NUCOR PLATE MILL
DIRECTIVE ON THE RESTRICTION OF THE USE OF CERTAIN
HAZARDOUS SUBSTANCES IN ELECTRICAL AND
ELECTRONIC EQUIPMENT 2002/95/EC (RoHS),
RECAST AS 2011/65/EU (RoHS 2)
DECLARATION**

To whom it may concern:

Nucor is pleased to announce that to the best of our knowledge, the steel substrate produced by all Nucor Plate Mill Divisions does not exceed the concentration limit in the table below. In addition, none of the hazardous substances in the table below are intentionally introduced to the substrate during the manufacturing process:

Substance	RoHS Limit (by weight in homogeneous material)
Cadmium & Cadmium Compounds	0.01%
Hexavalent Chromium	.1%
Lead & Lead Compounds	.1%
Mercury & Mercury Compounds	.1%
Polybrominated Biphenyls	.1%
Polybrominated Diphenyl Ethers	.1%

This includes all Plate steel products produced at our facilities in Cofield, NC and Tuscaloosa, AL, .

Nucor also supplies information on its safety data sheet (SDS), which is supplied to each purchaser and which are available to anyone at www.nucor.com/products/products/matrix/ or upon written request.
