

Nucor Steel Tuscaloosa, Inc. has an immediate opening for:

Process Metallurgist

Job Description:

This position will be an integral part of quality processes in our plate and coil steel manufacturing plant. Principal duties of the successful candidate will include participating in safety and housekeeping efforts, helping with process and product development, leading quality improvement efforts, leading team member training efforts, utilizing statistical process control tools to direct continuous improvement activities, working closely with operation and maintenance teams to ensure continuous improvements, working closely with customers on product development. Nucor Team Members are expected to participate in and promote an atmosphere of cooperation and team work. Safety is the most important part of all jobs within Nucor; therefore, candidates must be able to demonstrate the ability to initiate, lead and uphold safety policies, procedures, and housekeeping standards at all times.

Minimum qualifications:

- Bachelor's Degree in Engineering or other relevant technical degree from an accredited university
- Three years' metallurgical experience in steel manufacturing

Preferences include:

- Bachelor Degree in Materials or Metallurgical Engineering
- Experience with steel related processes including melting, casting, and/or hot rolling
- Strong communication skills
- Advanced problem solving ability
- Demonstrated ability to initiate programs
- Proven ability to utilize analytical/statistical tools

Nucor Steel Tuscaloosa, Inc. offers competitive pay commensurate with experience and benefits including Blue Cross Blue Shield Medical and Dental, 401(k) and a generous scholarship/tuition reimbursement plan for team members and dependents.
