

Nucor Steel Tuscaloosa, Inc. has an immediate opening for:

Steel Production Shift Supervisor

Job Description:

The role of the Production Shift Supervisor includes driving excellence in safety, housekeeping and environmental stewardship in a steel manufacturing plant. Duties and responsibilities include but are not limited to: leading the production team in planning and executing operations and maintenance; participating in personnel selection; participating in training and development of Team Members; striving for continuous improvement; coordinating operations with other departments; assisting fellow shift and day supervision as well as all team members in the area. The successful candidate must be able to participate in and promote an atmosphere of cooperation and team work.

Minimum Qualifications:

- 5 years minimum experience in steel manufacturing
- 3 years minimum experience in a leadership position in steel production
- Willingness to lead teams in either the Melting/Casting or Plate Finishing Department

Preference shall be given to candidates who possess:

- Four year degree from an accredited university in engineering or operations management

Salary plus production bonus

Nucor Steel Tuscaloosa, Inc. offers competitive pay commensurate with experience and benefits including Blue Cross Blue Shield Medical and Dental, 401(k) and a generous scholarship/tuition reimbursement plan for team members and dependents. If you meet the minimum qualifications listed above, follow the link below and provide the requested information:
